

Cyclone Prep and Prevention:

*Healthy trees to start with-

-Distance from dwellings.

-No rot or dying and diseased species- **Removal of all of these.**

*Denutting and heavy de-fronding of Coconuts, heavy seeded palms etc. before wet season starts.

*Thinning of inner canopies to allow for least wind resistance- ***most trees fail because of the sail..***

*Reduction of taller trees to back to the surrounding height of foliage- a group of foliage together in height can divert wind through funnelling..

- We use this as a tool to protect houses, sheds, outdoor entertaining areas etc.

-We can plant trees to create a buffer zone over the house. This reduces the frontal gust damage that occurs.

*** Large tree Preparation- Thinning of large canopies..**

-pruning of major deadwood over entire canopies..

-Reduction of overextended branches to reduce torsional twisting which eliminates limb failure..

Tree Removal, pruning, maintenance and mulching:

*We remove trees with care- pruning practices that reduces if not eliminates the damage to established gardens and surrounding areas.

*Any size tree- 150 tonne Crane work to handsaw and sicater formative pruning on fruit trees.

*Stump grinding of all stumps.

*All our pruning is to Australian standard- Pruning of amenity trees- AS-4373

*Formative pruning after a year since planting through to fine canopy pruning of large trees in high use and risk areas- Large Figtree at Gulligans.

*Citrus pruning

*Annual- Biannual Maintenance program with continual seasonal visual check-ups to eliminate risk and worry- everyone's too busy to worry about their trees- that's what I'm here for??

*Mulch supplies at \$25.00 cubic metre- 4 metres minimum-no palm included

Garden and Plant health care, Pest and Disease control:

*Diagnosis, prevention and eradication of all pests and diseases where possible- Using both Biological control and Chemical control if needed.

*Rust prevention- (Frangipani leaf spots)

*Mulching and watering timetables

*Vegetable planting and harvesting timetables
